

## A1 SAIL AROUND THE ISLAND - SUMMER 09

A1 Sailing Mallorca are arranging the first ever round the island race / regatta of its type which they are planning for June 2009.

The format is a "race" designed solely for cruisers, no spinnakers, cruising chutes etc and a social gathering each evening at the various ports. Start and finish will be Port Alcudia North Mallorca.

The idea is to take a fleet of boats entirely around Mallorca in 6 days, it can be a serious race or a cruise in company depending on what each boat wishes to do.

Martin Whyte of A1 Sailing told us; "The main objective of the regatta is to have a friendly race and enjoy some fun in the sun. We intend to have five one day races / cruises, visit five different ports and make the whole event into an enjoyable 7 days, for yachting enthusiasts to enjoy the finest Med sailing, scenery and great company!"

## PORT ADRIANO TAKES SHAPE

As the above photos show, the new outer sea wall which will guard the enlarged Port Adriano Marina is starting to appear above the waterline.

## NEW MOORINGS IN ANDRATX

Following the work which took place during the summer under the control of The Balearic Port Authority, and as required by the Dept. of the Environment, there are now 163 new moorings in Puerto Andratx.

The works which cost almost one million euros included the installation of an exterior sea wall and 16 floating pantalans which are anchored securely to the sea bed. A new 80 metre long quay for berthing smaller boats was also built inside the outer sea wall of the harbour.

## PHIL TAKES THE HELM AT DOVASTON

After more than ten years running, and ultimately selling his own successful company (Yacht Help Group) former yacht captain Phil Edwards has moved on to a new dual role as Managing Director of Fred Dovaston Crew, whilst remaining a partner in Vortech the innovative Palma based yacht sanitization specialists.

Phil takes over the daily management of the agency after Fred sadly passed away in June, and says he is "delighted with his new role" and certain that his "ideas and drive, coupled with the solid foundation built by Fred, will take Dovaston Crew to new heights."

*Friends and clients are welcome to contact Phil by e.mail: [phil@dovaston.com](mailto:phil@dovaston.com)*
