BOTAFOC

**PORT
TARRACO**

OCIBAR is one of the leading marina management companies in Spain and has been promoting, for almost 30 years, quality and exclusivity as distinctive elements of the marinas that it operates.

OCIBAR currently manages the marinas Port Adriano in Mallorca, Botafoc Ibiza in Ibiza, and the gigayacht harbour Port Tarraco on the Spanish mainland.

These marinas share excellence as a common value, each of them having their own characteristics that make them unique and unrepeatable. In this way, OCIBAR clients can enjoy a network of marinas that will make their stays a unique experience.

Port Tarraco

Acquired in 2020, Port Tarraco is located next to the port of Tarragona, so it has a privileged location in the western Mediterranean, and is conveniently connected to the rest of the ports of Spain and Europe.

It is a deep draft marina with 33 moorings of between 45 and 160 metres, offering gigayachts top quality services. A variety of specialised companies provide services and supplies to the yachts throughout the year, including PTW, Astilleros de Mallorca and Nautipaints.

The modern facilities have absolute privacy, services and security protocols to guarantee a warm welcome and personalised assistance for all boats and their crews.

Business Pier

In addition to berth management, Port Tarraco has a modern business centre: Business Pier, the new Mediterranean business hub with the seaside on both sides, which was created as the best solution to harmonise work and quality of life.

The Business Pier building complex, which has been designed with high quality materials, consists of 6 buildings, with more than 13,000 m², suitable for commercial premises, restaurants, offices and offices. Some of the companies currently installed include Fluor Corporation, Indra, Bureau Veritas, Cualtis, Beeko Engineering and Next Maritime, among others.

Next to Port Tarraco and the Business Pier, on the Moll de Costa, there are several reconverted port buildings that house, among others, the Port Museum, an exhibition hall, a conference room, the National Police and our corporate offices.

Port Adriano

Port Adriano is one of the most vibrant marinas in the Mediterranean. It has almost 500 moorings from 6 to 100 metres in length and a large dry dock. From a technical point of view, Port Adriano has the latest technology, as well as exclusive services for the crew and clients that make this base a benchmark within the marinas of Europe and the ideal place from which to explore the incredible offer that Mallorca has to offer.

In addition, this port offers an original calendar of events and unique activities throughout the year: classic car competitions, exhibitions, sporting events, regattas, gastronomic festivals, yoga master classes, urban art competitions, short films and much more.

On the other hand, Port Adriano Mallorca Festival is already established as a musical hallmark in the Balearic Islands, and many international artists have already performed here, such as Gloria Gaynor, Roger Hodgson, Tom Jones, Buena Vista Social Club, George Benson, Kool & The Gang, Los Secretos, Hombres G, Ara Malikian, Village People, The Jacksons and José Carreras, among many others.

Botafoc Ibiza

Located on the white island, Botafoc Ibiza Marina is one of the most important ports in the Mediterranean with a total of 428 moorings. The port has a large dry dock, petrol station, as well as a large selection of restaurants and fashionable shops. And of course, its wide range of nautical charter, sales, maintenance of all types of boats and nautical sports, complete the commercial offer of this marina on the wonderful island.
